IMPORTANT GOVERNMENT ORDERS

GENERAL SECRETARIAT

Cultivation of Food and Fodder Crops in the unsubmerged portion of the Krishnarajasagara Lake.

* READ—

Government Order No. R. 292-7—R. M. 15-43-1, dated the 16th July 1943, directing the grant of further concessions for promoting the "Grow More Food Scheme."

2. Record note of the proceedings of a meeting of the following officers with the Minister for Agriculture, at Mysore, on the 27th November 1945, to consider the steps to be taken to encourage cultivation of food and fodder crops in the margin of the Krishnarajasagara Lake that annually gets unsubmerged during the period when water recedes.—

1. Mr. B. S. Narasinga Rao, Superintending Engineer, Krishnarajasagara.
2. " M. J. Narasimhan, Director of Agriculture in Mysore.
3. " C. M. H. Ranajodha Singh, Deputy Commissioner, Mysore.
4. " K. Thippesudriah, Deputy Commissioner, Mandya.
5. " M. C. Sampathlingar, Executive Engineer, Krishnarajasagara.
6. " N. Seshu Iyer, Sub-Division Officer, Mysore.
7. " K. Balasubrahmanyam, Sub-Division Officer, French Rocks.
8. " M. Narayana Reddy, Special Officer, Grow More Food Campaign.

ORDER No. A. F. 3062-76—AGRI. 164-45-1, DATED BANGALORE, THE 22ND DECEMBER 1945.

From the records of the Public Works Department, it is found that a total extent of about 17,000 acres of land on the margin of the Krishnarajasagara Lake becomes unsubmerged every year, as the water recedes from the 124 foot level to below 90 during the summer months. Owing to the failure of the monsoon this year, the level in the lake has already gone below 90. It is estimated that out of the total extent of 17,000 acres referred to, about 8,000 acres of land are cultivable. As this area has plenty of moisture, having been under water for many months, and is also enriched by silt deposits, it is considered eminently suitable for the short-term cultivation of food and fodder crops to relieve the existing scarcity. It is reported, however, that only an extent of about 500 acres of this land is under cultivation.

2. The measures to be undertaken to encourage a more extensive cultivation of this land with food and fodder crops were considered at the meeting of officers referred to above and the following proposals made:—

(1) That the raising of kar-paddy, kar-ragi and jola may be encouraged and the concessions hereinafter mentioned may be made applicable to these crops only;

(2) That the Department of Public Works should furnish to the Director of Agriculture and to the Deputy Commissioners of the Mysore and Mandya Districts full particulars (that are already available with the Public Works Department) of the lands that get unsubmerged;

(3) That the Department of Agriculture should supply, free of cost, the seed required—which is estimated to be about 1,100 pallas for the cultivable extent of 8,000 acres, no manuring being necessary;

(4) That the assessment of eight annas per acre, stipulated in paragraph 3 of the Government Order dated 16th July 1943, be waived and that the entire amount of such assessment already recovered for the current season on lands on which the abovementioned crops are raised, be remitted;

(5) That, as a further inducement, a bonus of four annas per palla subject to a minimum of one rupee per acre brought under cultivation, be paid to cultivators raising the abovementioned crops in the area;

(6) That an additional sum of Rs. 500 may be set apart for grants, by the Deputy Commissioners, of suitable rewards to Village Officers and leading agriculturists who show good progress in the cultivation of these lands;

(7) That a special drive be organised in this direction, with Headquarters at Krishnarajasagara;

(8) That the Special Officer in charge of the "Grow More Food Scheme" should camp at Krishnarajasagara for some period to push the scheme. He will be assisted by as many agricultural inspectors sanctioned already under "Grow More Food Scheme" as could be spared for this purpose;

(9) That the Deputy Commissioners of Mysore and Mandya Districts be given an extra staff of two Revenue Inspectors and four peons for each district to do propaganda work and, later, to measure the area actually brought under cultivation and take the necessary steps regarding procurement; and

(10) That it should be widely published, by beat or tom-tom and by other means, such as issue of hand-bills in Kannada, that all these lands referred to will be made available, without any restriction and even without previous application, to any *bona fide* cultivator that comes forward to grow the abovementioned crops on them.

3. Government are pleased to sanction the proposals detailed above. The Heads of Departments and Deputy Commissioners concerned are requested to pay special attention to this matter and to see that as large an extent of this area as possible is immediately brought under cultivation.

4. A number of tanks, e.g., Koppa, Holalu, Maddur, Malvalli and French-Rocks have been breached, as an anti-malaria measure. It has been represented that these tanks might be allowed to be bunded up temporarily, for storing water to enable irrigated ragi or jola to be grown under them. Government are pleased to permit this as a temporary measure, for the current season only, subject to precautions being taken to see that the bunding of these tanks will not worsen health conditions in the surrounding areas. This measure will apply to about 30 tanks, commanding an acreage of about 10,000 acres for the raising of the crops mentioned above.

MOHAMED ISMAIL SHERIFF, *Genl. Secy.*

DEVELOPMENT SECRETARIAT

Publishes for general information the general policy of Government, regarding the grant of concessions and facilities for the establishment of Industries in the State.

ORDER NO. D. 4856-925—I & C. 278-45-1, DATED BANGALORE, THE 29TH DECEMBER 1945.

A number of applications are being received by Government from Company promoters and others for the grant of concessions and facilities for the establishment of industries of all kinds. These applications are usually of too general a character to be speedily dealt with. It may, therefore, conduce to speedy disposal of such applications, if the general policy of Government in this respect were laid down, each case, however, being dealt with on its merits.

The concessions usually asked for are in respect of (1) the grant of land, (2) the supply of water, (3) the supply of electric power, (4) the provision of railway siding and the grant of freight concessions, (5) the grant of priorities for obtaining controlled materials, (6) the purchase of products by Government, (7) the grant of monopoly of manufacture, and (8) the purchase of shares by Government. The general policy of Government in regard to these matters is as follows:—

(1) *Land*.—Factories in Bangalore City, are generally to be located in the Industrial Suburb. Applications for sites in this area are to be made to the President, City Improvement Trust Board, Bangalore City. Elsewhere, if the land applied for is Government land and it is not required for any public purpose, it may be given at an upset price. If it is private land, Government may acquire it under the provisions of the Land Acquisition Act, if they consider such a course necessary. The payment of the "fine" ordinarily leviable on agricultural land used for non-agricultural purposes can be waived only in specially deserving cases.

(2) *Water*.—In the case of the filtered water-supply of Bangalore or Mysore Cities, the applicant may first approach the Executive Engineer of the respective Water Supply Division. In other cases, the Deputy Commissioner of the district concerned may be approached with full details of the supply required in order to see whether it would be available or not for the purpose in question.

(3) *Electric Power*.—The Chief Electrical Engineer may be approached with details of the extent of power required, the purpose for which, and the locality in which, it is required. If the power is available, it will be given at the scheduled rates.

(4) *Railway Siding and Freight Concessions*.—The General Manager, Mysore State Railways, may be approached in the first instance with the necessary details.

(5) *Priorities*.—Applications for the grant of priority for the purchase of building materials, such as, iron or steel, cement and timber, may be made, respectively, to the Iron and Steel Controller, Mysore Iron and Steel Works, Bhadravati, the Controller of Civil Supplies, Bangalore, or the Chief Conservator of Forests, Bangalore. In other cases, the Controller of Civil Supplies may be approached. When priorities have to be obtained from the Government of India, reasonable assistance will be given therefor.

(6) *Purchase of Products by Government*.—No specific undertaking can be given in this regard, but under the rules of the Stores Purchase Committee preference is given to local products, provided quality and prices are competitive.

(7) *Monopoly of Manufacture*.—No guarantee can generally be given to any prospective industry that manufacturers of a similar nature will not be permitted in the State. In special cases, however, where it appears to Government that such a course would be justified in the interests of the industry or the State, they would be prepared to give an assurance that State aid will not be extended for a specified period to any competing concern that may be sought to be established in the State as a whole or in a particular area.

(8) *Purchase of Shares by Government*.—Wherever Government may consider it necessary to do so in the interests of the industry, they may participate in the share capital of the proposed company to the extent necessary, provided there is no managing agency and Government have a controlling voice on the directorate and in the appointment of the Chairman, Managing Director and General Manager.

Applications for the issue of capital will have to be made to the Secretary, Capital Issues Committee, Public Offices, Bangalore.

C. E. NORONHA, *Dev. Secy.*

Passes orders reconstituting the Shimoga District Food Council, Shimoga District.

READ—

Government Order No. S. D. 1798-1815—A. 115-43-1, dated the 17th September 1943, constituting the Central, the City and the District Food Councils in the State.

2. Government Order No. S. D. 4019-40—A. 115-43-5, dated the 17th December 1943, increasing the number of members on the Councils referred to in the Government Order read above.

3. Letter No. F. 5710-44, dated the 27th September 1945, from the Director of Food Supplies in Mysore, Bangalore, recommending the reconstitution of the Shimoga District Food Council as proposed by the Deputy Commissioner, Shimoga District.

• ORDER NO. S. D. 4055-65—A: 37-45-35, DATED BANGALORE, THE 3RD JANUARY 1946.

Government are pleased to direct that the District Food Council, Shimoga, be reconstituted as in the statement annexed.

C. E. NORONHA, *Dev. Secy.*
